

## Life Science Firms

Company	Description	City
Accordant Health Services	Provides disease management services; assists patients with complex and chronic diseases by helping with patient satisfaction and improved clinical care.	Greensboro
Algaen Corp	Manufactures high-quality protein and herbal products from algae	Clemmons
ALR Technologies	Designs and manufactures medication compliance and reminder systems	Winston-Salem
Altadonics	Manufactures denture tracking systems and replacement dentures	Winston-Salem
Andersen Products Inc.	Manufactures surgical tubes and pumps	Haw River
Aqualutions	Research and development for aquaculture industry to increase the health and quality of fish farm populations	Winston-Salem
Asinex	Sales office and distribution for small molecule libraries	Winston-Salem
Banner Pharmacaps Inc	Manufactures soft gelatin capsules for prescription and OTC pharmaceuticals	High Point
BD	Manufactures laboratory instrumentation used in diagnosing cancer	Mebane
BD Diagnostics-Tri Path	Manufactures systems that improve cervical cancer screening through advanced preparation techniques and computer-assisted screening technologies	Burlington
Biographics Inc.	Develops and manufactures microwire recording arrays for use neurophysiology testing	Winston-Salem
Bio-Tech Prosthetics & Orthotics	Manufactures artificial limbs	Asheboro Greensboro Winston-Salem
Braemar Inc.	Designs, manufactures and services diagnostic cardiology devices	King
C° Change Surgical LLC	Develops and commercializes technologies that improve operating room staff and procedure efficiency	Winston-Salem
Carolina Biological Supply	Sales office for science supplies and materials for use in the science classroom and labs	Burlington
Carolina Liquid Chemistries	Develops and manufactures in vitro diagnostic reagents for quantitative testing of analytes	Winston-Salem
Carolina Narrow Fabric	Manufactures woven, and rib and tubular knitted narrow fabrics and tapes for the medical industry	Winston-Salem
Carolina Research Glass	Manufactures glassware for laboratories	Greensboro
Cathtek	Medical device development and manufacturing; specialized experience developing catheters and related accessories	Winston-Salem
CEDARLANE Laboratories	Sales office for research reagents	Burlington

Company	Description	City
Center for Clinical Research	Conducts all phases of clinical trials for pharmaceutical companies and medical device manufacturers	Winston-Salem
Charter Medical Ltd	Manufactures products to facilitate the collection, separation, manipulation, transportation, storage and administration of blood, blood components and vital fluids in the biotechnology and pharmaceutical industries	Winston-Salem
Clean Earth Technologies	Biodefense and Emerging Infectious Disease Preparedness Center	Winston-Salem
ConvaTec	Manufactures medical devices for wound care	Greensboro
Cook Medical	Designs, develops and produces endoscopic accessories	Winston-Salem
Corn Products International	Produces high fructose corn syrup using fermentation processes	Winston-Salem
DNA Security Inc.	Provides high quality forensic and identity testing services to state crime labs, law enforcement, corporations and private individuals	Burlington
DOES Inc.	Research and development for an insulin inhaler	Winston-Salem
Elastic Therapy Inc	Manufactures and designs private label medical compression hosiery	Asheboro
EN-CAS Analytical Laboratories	Provides analytical chemistry contract services to the agrochemical, veterinary and bioanalytical industries	Winston-Salem
Fibercell	Research and development for a novel architecture for solar cells	Winston-Salem
Filigree Nanotech Inc.	Manufactures silver, platinum and gold nanomaterial using a patented process that produces highly superior material in various sizes and shapes	Winston-Salem
GBF Inc.	Manufactures toxicology kits and specializes in clinical trials and diagnostic medical packaging	Greensboro
Gen Trak Inc.	Manufactures HLA serology trays, frozen cell trays, and BAG molecular products including SSP, DNA isolation and Cyclus check	Liberty
Gene Smart Health	Research and development for an over-the-counter medical food designed to reduce the production of leukotrienes, substances known to play a significant role in asthma and allergy attacks	Winston-Salem
Geodax Imaging LLC	Develops diagnostic imaging solutions	Greensboro
GlycoMark Inc.	Research and development for GlycoMark, a new FDA-approved blood test for intermediate term monitoring of glycemic control in people with diabetes	Winston-Salem
GT Callison LLC	Research and development for novel diagnostic tests for animal pathogens	Mocksville
Huntsman International	Provides textile-related chemicals	Greensboro
Idexx Pharmaceuticals	Develops pharmaceutical and biotechnology products for the veterinary market.	Greensboro

Company	Description	City
Incutech Inc	Develops, imports and distributes disposable medical devices, with particular emphasis on neonatal, ostomy and skin care products	Kernersville
Keller Crescent	Produces flexographic & rotary letterpress printing, roll labels	High Point
Laboratory Corporation of America	Performs laboratory diagnostic and genomic testing	Burlington
Medi USA	Manufactures medical compression stockings	Whitsett
Mediwave Star Technology Inc.	Develops technologies which allow quantitative prediction of cardiac ischemia and risk for ventricular arrhythmia	Greensboro
MEDTOX Diagnostics Inc.	Manufactures diagnostic drug screening devices	Burlington
Mendenhall Clinical Research Center	Dedicated phase 1 clinical trial research unit for TransTech Pharma	High Point
Merz Pharmaceuticals	Develops specialty pharmaceuticals for dermatology	High Point
Muscadine Naturals	Produces nutritional products from the muscadine grape	Lewisville
Mycorrhiza Biotech LLC	Research and development for biotechnology associated with the use of mycorrhizal fungi and allied organisms	Burlington
Mylan Pharmaceuticals	Distributes pharmaceuticals	Greensboro
NanoMed Corporation	Research and development for technologies that will provide a reliable, portable and efficient method for the detection of pathogens, chemicals and biological markers at the point-of-care and point-of-test	Greensboro
NanoTechLabs Inc.	Develops and produces nanotubes, nanowires, nanoparticles, and specialty chemicals for the military and commercial markets	Yadkinville
Nimbus Technologies	Manufacturing for biotechnology instruments and R&D equipment on a contract basis	High Point
Novartis Animal Health	Research and development for pet and livestock health and wellness products	Greensboro
Ocular Systems Inc.	Specializes in cornea transplant services with an emphasis on preparing donor corneal tissue for DSEK/endothelial keratoplasty	Winston-Salem
Onconix Inc.	Research and development for a highly accurate blood test for cervical cancer to either supplement or replace the Pap smear	Winston-Salem
OptiVia Medical	Develops and commercializes unique patented products for the practice of endoscopic medicine	Winston-Salem
Otothera Inc.	Develops therapeutic and diagnostic devices for the management of tinnitus	Winston-Salem
PharmaCore Inc.	Manufactures pharmaceuticals	High Point
Pharmalabel, Inc.	Manufactures pharmaceutical labels & flexographic design services	Greensboro
Physicians Laboratories	Produces and distributes Revival Soy protein products	Kernersville
Piedmont Medical Research	Performs clinical research studies	Winston-Salem

Company	Description	City
Piedmont Pharmaceuticals	Research and development for drugs specializing in parasitology	Greensboro
Plexilight	Develops flexible organic lighting systems	Winston-Salem
Plureon Corp.	Develops technology platform focused on stem cells extracted from amniotic fluid and placenta	Winston-Salem
Proactive Genomics	Research and development of a genetic test for men to assess their genetic risk for prostate cancer	Clemmons
Procter & Gamble	Manufactures cough & cold liquid OTC drugs	Greensboro
Professional Service Inds.	Performs laboratory testing	Greensboro
Prosperon Pharmaceuticals Inc.	Discovers and develops drugs for degenerative diseases	Winston-Salem
Prova Images	Research and development for software to diagnose heart disease using MRI technology	Winston-Salem
Provagen Inc.	Plans to commercialize a technology that uses "Protein V" to purify and isolate antibodies that can be used in a number of disease treatment and diagnostic applications	Greensboro
Qualicaps	Manufactures empty two-piece capsules (gelatin HPMC) and encapsulation equipment	Whitsett
QuarTek Corp	Conducts research and develops processes to produce nano-sized materials, devices and sensors	Greensboro
Salzburg Therapeutics Inc.	Research and development for new technologies in cancer treatment to selectively eradicate malignant cells	Winston-Salem
Sapona Plastics	Produces injection molded products for the personal care and veterinary markets, certified for medical device manufacturing	Asheboro
Select Diagnostic, Inc.	Performs clinical laboratory and diagnostic testing	Greensboro
Shoaf Scientific Consultants Inc.	Chemical, biochemical and toxicological research and consulting	Lexington
Spectrum Laboratory Network	Performs clinical laboratory testing for doctors offices	Greensboro
SpringMed Group LLC	Consults with companies on their development time line and launch of medical devices	Winston-Salem
Sterigenics	Sterilizes medical products on a contract basis	Burlington
Stovall Life Sciences	Manufactures products for the molecular and cell biology research marketplace	Greensboro
Suncare Research Laboratories	Research and laboratory testing, specializing in SPF, UVAPF (in vivo and in vitro), photostability, phototoxicity and photoallergenicity	Winston-Salem
Syngenta Crop Protection Inc	Research and development for agricultural chemical treatments; North American headquarters	Greensboro
Synomics Pharma	Provides analytical research services to support the development and manufacturing of pharmaceutical, biotechnology and consumer healthcare products	Snow Camp
Targacept Inc.	Research and development for drugs specializing in disorders of the central nervous system	Winston-Salem

Company	Description	City
Technology Crops International	Designs, evaluates and produces specialty crop-derived material for the biotechnology industry	Winston-Salem
Teleflex, Inc.	Manufactures heart catheters	Asheboro
Tengion	Manufactures and performs research and development for regenerative medicine	Winston-Salem
Thermiacure	Research and development for a technology that has ability to send medicines straight to cancerous cells, minimizing the patient's exposure to radiation and chemotherapy and therefore reducing the harmful side effects of hair loss, nausea and weakness	High Point
TransTech Pharma	Research and development laboratory for clinical stage pharmaceuticals	High Point
TunTek	Research and development for an automated process for identifying broken or damaged human DNA, which is an indicator of cancer and other health problems	Lexington
Vascular Pharmaceuticals	Develops and commercializes novel therapeutic products for the treatment of secondary complications of diabetes	Burlington
Ventlab Corporation	Designs and manufactures medical devices used in anesthesia, respiratory care, critical care and emergency medical services	Mocksville
VG Innovations, Inc. (VGI)	Research and development for high-performance and minimally invasive spinal implants	Winston Salem
Vitacost	Manufactures and distributes nutritional supplements	Lexington
